

K-LOVE radio is an important part of the Phoenix community. It provides a positive alternative music selection for people who are tired of listening to the "junk" on other stations.

K-LOVE offers not only wonderful music but also community service thru prayer and broadcasting of events in the local communities it broadcasts in. If an LPFM took over its spot, there would be a great loss to those of us who support the station (which is listener supported).

Please consider keeping the FM translator services that K-LOVE and other smaller stations use over the LPFM that others would like in place that will play the same music that is already on the radio on other FM stations.
